

# Quick Start **Guide**

## Getting Started

### Confirm Device is within Scope of ioXt 2020 Base profile:

- Device must not fall under any other approved ioXt profile
- Device must qualify under the DLC NLC5 certification process, or equivalent

### Gather the following information:

#### Product Details

Image of Product to Upload  
Specific SKU  
Product Description  
Link to Webpage

#### Firmware Details

Firmware Version Number  
Firmware Update Link  
Operating System Information

## Alliance & ioXt Security Platform

### Join the Alliance and Gain Access to the ioXt Security Platform [here](#)

- Alliance reviews the submission and sends a one-time log-in to change password (check spam folder)
- Follow the link provided in the email and set a permanent password

## Join the **ioXt Alliance**

Build confidence in Internet of Things products through multi-stakeholder, international, harmonized, and standardized security and privacy requirements and product compliance programs. As part of your ioXt Alliance membership, you be provided access to the ioXt Security Platform allowing you to certify your products.

Enter your information below and a representative will contact you shortly to complete the registration.

Full Name	<input type="text" value="first"/>	<input type="text" value="last"/>
Phone	<input type="text" value="xxx-xxx-xxxx"/>	
Company	<input type="text"/>	
Company Website	<input type="text"/>	

# Getting Started

## 1. Add your device details:

- Select '+' to add your device or mobile app
- Enter all the specific information into the product details form including adding a product image, and entering the operating system and firmware information

The screenshot shows a user interface for adding a device. On the left is a sidebar with menu items: Profile, My Products (highlighted in pink), Membership, and My Documents. The main area contains a large square image placeholder with a grey '+' icon in the center. To the right of the image placeholder is the 'Product Details' section, which includes three input fields: 'Product Name', 'Product SKU', and 'Product Description'.

## 2. Select the ioXt 2020 Profile and Certification Method:

- Select the Networked Lighting Controls ecosystem to help with device categorization/recognition
- Select the ioXt 2020 profile within Certification Type field
- Select Manufacturer Certified or one of the Authorized Lab options within Certification Method

The screenshot shows a form for selecting certification options. It features several fields: 'Ecosystems' with a dropdown menu showing 'Network Lighting Controls' and a close icon; 'Certification Type' with a dropdown menu showing 'ioXt 2020'; and 'Certification Method' with a list of three options: 'Manufacturer Certified', 'Authorized Labs - Black box certified', and 'Authorized Labs - White box certified'. At the bottom of the form are two buttons: 'Cancel' and 'Next'.

### 3. If Selecting an Authorized Lab, complete the Security Testing Questionnaire

- After submitting the questionnaire, the Authorized Lab will complete the remainder of the portal wizard described in steps (4-6) below

#### Security Testing Questionnaire

Company Name	Device Maker
Company Address	address
Name of technical contact	<input type="text" value="Charlie Smith"/>
Email	<input type="text" value="chsmith@ioXt.com"/>
Work Phone	<input type="text" value="404-759-1612"/>
Product Name	Network Lighting Controller
Product SKU	1234567890
Firmware Version #	<input type="text" value="1.0"/>

### 4. If Self-Certifying, select any partner certifications applicable to device:

#### Network Lighting Controller

Firmware Version # 1.0

---

#### External Certifications

Select all applicable ioXt partner certifications for this device firmware version from the list below. Click Next to skip.

**Certification Type**

### 5. Submit results for each of the Pledge steps located on the left-hand side of the screen:

**MANUFACTURER**

- 1 Vulnerability Reporting Program
- 2 Security Expiration
- 3 **Automatically Applied Updates**
- 4 Verified Software
- 5 Cryptography
- 6 Secured Interfaces
- 7 Security by Default
- 8 No Universal Password
- 9 Review

#### Network Lighting Controller

Firmware Version: # 1.0  
Certification Profile: ioXt 2020

**LEVEL 1**  
(In Progress)

---

#### Automatically Applied Updates

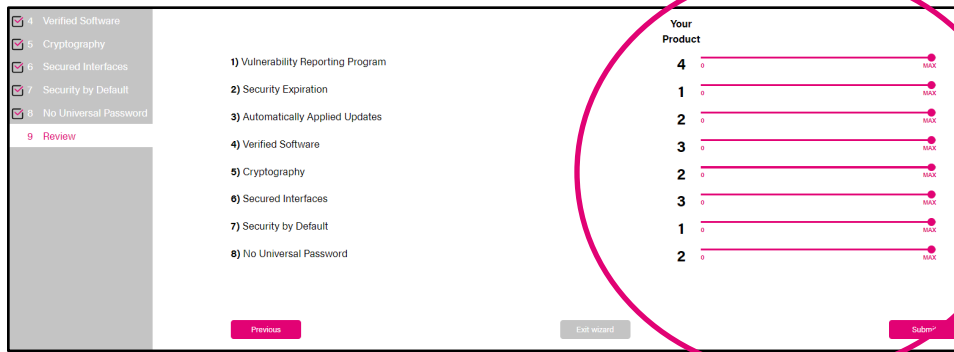

Documentation is optional to progress in this questionnaire. The documentation confidentiality is maintained by the Alliance, and is used to arbitrate researcher certification disputes.

	YES	NO	N/A
AA1 - Software updates are supported	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>
AA2 - Software is maintained and updated	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>

A security maintenance plan which includes both internal and external supplied software

## 6. Review Pledge Levels:

- Carefully review device results and submit results
- Assign your device to an ioXt License

## Certification Submission Summary

You are one step away from bringing your IoT Security to the next level!

### »» Assign Device to an ioXt License

New License

or

Assign to Existing License

## Licensing

Once an ioXt License has been assigned to your device, and your submission has been confirmed by the ioXt Alliance, your device will be successfully licensed!

## Welcome to the ioXt Security Platform!

Your Product is registered and pending ioXt Certification

The ioXt team is reviewing your submission and will provide a status within two business days

Your access to the ioXt Security Platform is now active and you may begin enjoying the benefits list below

### Your ioXt Security Platform benefits include:

- ✓ Certified Product Listing
- ✓ Regulatory Updates
- ✓ Security Monitoring Alerts
- ✓ Vulnerability Disclosure
- ✓ Device Reassignment
- ✓ Researcher Disputes
- ✓ Regulatory Requirements Wizard
- ✓ Manage device license assignments
- ✓ ioXt logo and QR Codes
- ✓ ioXt Events

Visit your [Member Portal Dashboard](#) to access the ongoing benefits of your ioXt Platform License and Alliance Membership!
